SUMMARY

Fresher Front-End Developer skilled in **HTML, CSS, JavaScript, Tailwind CSS and React**. Experienced in building responsive, user-friendly interfaces from design wireframes. Eager to apply my knowledge to real-world projects and continuously grow in web development.

PROJECTS

GREENDEN – Plant Store Website | [Live Demo](#)

Tech Stack: HTML5, Tailwind CSS (CDN), JavaScript

A modern and fully responsive plant e-commerce frontend built using HTML, Tailwind CSS, and JavaScript. Features include real-time product search, responsive navigation with mobile sidebar, and a clean contact form layout. Designed to simulate a real-world shopping UI experience.

Actodo – Task Manager App | [Live Demo](#)

Tech Stack: React, Tailwind CSS, JavaScript, React Router

A responsive Todo List web app built with React to help users manage daily tasks effectively. Features user authentication (signup & login without backend), task creation, and a clean UI. Built using a modular component-based structure.

Weather Report App | [Live Demo](#)

Tech Used: React, Axios, Tailwind CSS, OpenWeatherMap API

A clean and user-friendly weather application built with React that fetches live weather data using Axios from the OpenWeatherMap API. Allows users to search any city and view the current temperature, weather condition, and a short description in real time.
